This is a small fun design for anyone at the intermediate level. Use the global or acrylic palette.

## **Palette - JansenArt™Traditions Acrylic**

Warm White

Medium White

Hansa Yellow PY 74

Dairylide Yellow PY 83

Yellow Oxide PY 42

Naphthol Red PR 170

Burgundy

Carbon Black PBk 7

## **Mediums**

Dark Primer

Extender & Blending Medium

Glazing Medium

Satin Varnish

## **All Standard Painting Supplies**

### **Brushes – JansenArt Brushes**

Filberts #6, #8

Angular 3/8

Chisel Blender #8

Large Wash Brush

Small mop or detail brushes for blending

### **Surface**

Use any surface of your choice.

### **Surface Preparation**

Mix Burgundy + Black (3:1), to that add 1 part of Dark Primer. Give your surface 2 coats, lightly sand after the 2<sup>nd</sup> coat and dry. Apply one coat of Glaze Medium + water (1:1); this will assure that all graphite lines can be easily removed. Transfer design with light graphite.

## **Suggested Painting Instructions**

1. Undercoat the flowers and leaves with Medium White, use water, and undercoat the elements fairly opaquely but without texture, dry.
2. Base in the flowers with the colors suggested on the Primrose Color Chart, use water of a little extender, dry.
3. Base in the leaves with Light Green Mix, dry.
4. Apply a thin layer of Extender, remove excess, and rebase the flowers and leaves as before. Side load into the suggested color on the charts and begin to shade and highlight. I favor an angle brush to do this, however use the brush of your choice; use Glaze Medium to control the color side load.
5. Soften colors with a small dry detail or mop brush. Dry, and repeat as needed.
6. If you choose to use Glaze Medium as a barrier coat, thin it with 1 part water and apply only to the flower and leaves.
7. The star centers of the flowers are Yellow Oxide, side load into a little dark red or dark green for the centers in the middle.
8. Finish with two coats of Satin Varnish

## Color Mixes

---

**Background Color:**

Burgundy + Black (3:1).

**Yellow Mix:**

Hansa Yellow + Dairylide Yellow (1:1).

**Medium Green:**

Yell. Mix + Black (1: 1/8) + touch W. White

**Light Green:**

Med. Green Mix + more Warm White

**Dark Green:**

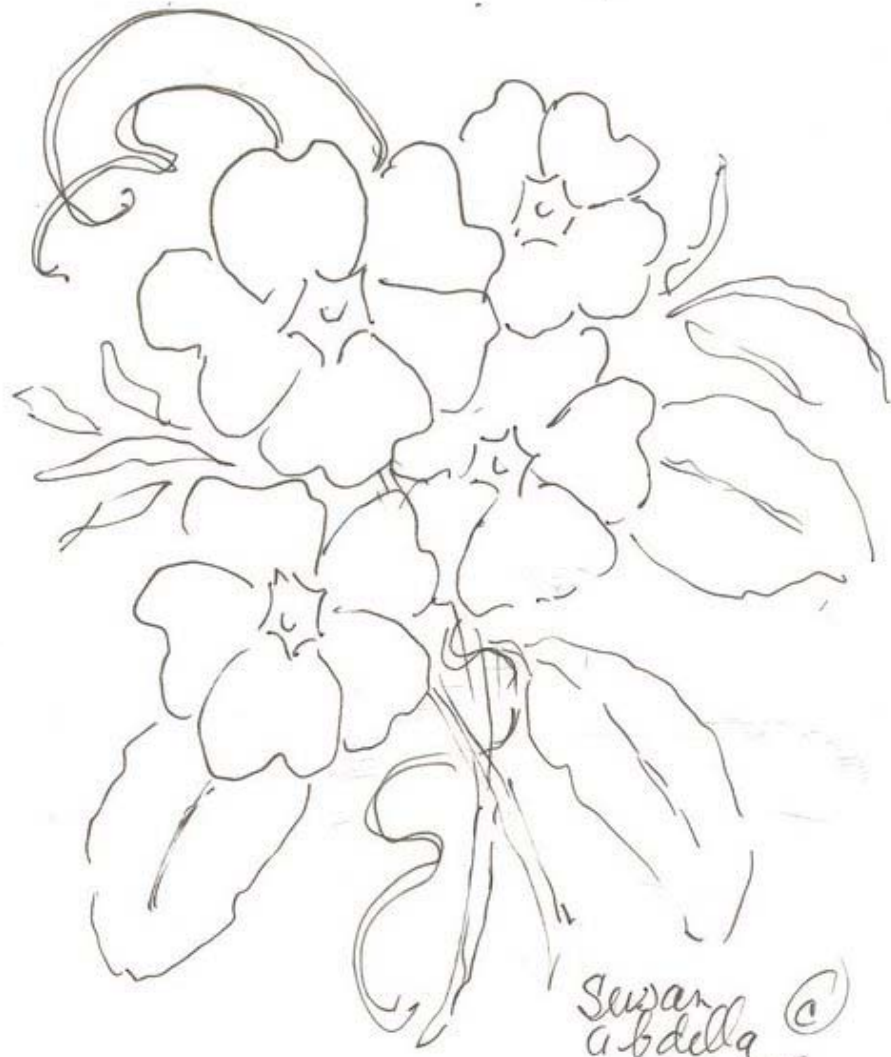

Medium Green Mix + more Black

### Primroses Color Mixes
